How did you get to know the SINER-GI project ?

Trough the partnership with researchers from the CIRAD.

Are you recommended by a SINER-GI team researcher ?

Claire Cerdan and Denis Sautier

What are your expectations from your collaboration with SINER-GI (scientific information, scientific publication, market information, government regulations, Master or Ph.D Thesis, other) ?

- to obtain an access to scientific information
- to join the SINER-GI aiming to realize a post doc program

**Type of collaboration desired : please tick**

Access to on-line information

- ☒ Draft reports, internal forum: right to access after signing commitment to participation and confidentiality
- ☐ Do you (and/or your institution) wish to be referred on [www.origin-food.org](http://www.origin-food.org) ?

Access to methodologies and guidelines

- ☒ Use of non-published methodologies and guidelines. Right to access SINER-GI guidelines, evaluation grids, analytical papers : granted after signing the commitment to participation and confidentiality (see below).

☐ Access to "cost-sharing"

A budget is included in SINER-GI to fund external collaborations linked specifically to the case studies component (WP5).

After a selection procedure to be followed in 2006, in-depth collaboration will be set for 7 case studies, starting in late 2006.

☒ Access to SINER-GI name for developing new projects and proposals :

Additionally, SINER-GI welcomes initiatives by partner institutions and associate researchers to develop new research initiatives tuned in with the project (research projects, workshops, stakeholders' meetings, student scholarships, etc.).

In order to support such new projects, explicit mentions of SINER-GI project and network can be made, granted the following conditions:

- the funding proposal is coherent with the general hypothesis and theoretical framework exposed in the SINER-GI Technical Annex ;
- before being sent to the supporting institution, the guidelines of the funding proposal (objectives, methodology, deadlines, etc..), are submitted to the SINER-GI Steering Committee ([sylvande@toulouse.inra.fr](mailto:sylvande@toulouse.inra.fr)) and receive a positive answer.

## Associated researchers

### Commitment to participation and confidentiality

As associated researcher to the European Project SINER-GI, which aims are to "build and share a coherent scientific basis world-wide, regarding economic, legal, institutional and socio-cultural conditions of success of Geographical Indications, in order to support their legitimacy in the framework of WTO negotiations", I am willing to participate in its scientific activities during its duration.

In this framework, I will be associated in a process of exchange. In this way, I will support the project, receive and provide information and analysis on accurate data about Geographical Indications and their economic and institutional field in the world, hereafter the Confidential Information.

In order to provide protection against inappropriate use or unauthorised disclosure to a third party of the Confidential Information, I commit myself to the following :

I commit myself to keep those data and analysis confidential until they have been published by the consortium. I will not myself publish part or totality of those data and analysis, without refereeing to the Steering Committee or unless the Steering Committee of the project requests my participation in such a publication.

I will not use this Confidential Information with the purpose of direct or indirect exploitation, without the prior, written authorisation of the owners of the Confidential Information.

I will take all reasonable measures to prevent the personnel of the Institution I belong to, from disclosing all or part of this Confidential Information to a third party without the prior, written authorisation of the owners of the Confidential Information and, only give this Confidential Information to personnel of my Institution who agree to accept the provisions of this agreement concerning confidentiality.

I agree that none of these provisions may be interpreted as granting a license and/or any right and/or title whatsoever for the use of this Confidential Information.

I agree that any use of this Confidential Information shall be subject to the prior signature of an agreement with the owner(s) of the Confidential Information (including myself).

However, Information shall not be deemed as confidential if an associate researcher is able to prove:

- that it was already in the public domain at the time it was communicated or that it has subsequently come into the public domain other than as a result of a breach of the obligation of secrecy, or
- that he already had the information before it was communicated to him/her; or
- that he freely received it from a third party which was at liberty to disclose it, or
- that he is legally bound to communicate it.

This secrecy agreement will be valid from the date of signature and will last as long as the said information is not in the public domain.

As this commitment is also signed by the other associate researchers of SINER-GI project, the confidential information I will provide in the framework of the project is also protected from disclosure.

Publications produced in the frame of such a cooperation :

- will mention the SINER-GI project,
- will concern topics defined in collaboration with the SINER-GI Steering Committee,
- will be co-authored by at least one member from the core SINER-GI team.
