

Information sheet on associated researchers

SINER-GI Associated researcher

Name	Fabien JOUVE
Institution	Université Lumière Lyon2 / Université Laval / ISARA-Lyon
Address	ISARA-Lyon, 23 rue Jean Baldassini, 69364 Lyon Cedex 07
Country	France
Phone	04 72 77 32 87
E-mail	fjouve@hotmail.com

Area(s) of activity

Research	<u>Researcher on Quebec's GIs, research fields :</u> Geographical Indications and rural development Spatial analysis of agri-food systems Social analysis of local governance Specific local quality social construction Schedule of conditions analysis
Education	(2006) T.D. Environnement et gestion des ressources naturelles, Licence Pro Droit et Gestion des Entreprises Agricoles et Agroalimentaires, Université Lumière Lyon 2, France - http://www.univ-lyon2.fr
Student	Ph.D Thesis: <i>Geographical Indications in Quebec rural space</i>
Extension	
Other (precise)	

Background and current projects

2007	« Approche territoriale des systèmes de production au Québec : nouvelles perspectives », paper in progress.
2006	« Réseaux de distribution des produits agroalimentaires liés à une origine géographique au Québec », paper in progress. « Lien au territoire et initiatives de développement local : le cas des produits du terroir au Québec », mémoire de Master 2 recherche, Université Lumière Lyon 2, sous la direction du Professeur Claire Delfosse, co-encadrement par Carole Chazoule et Rémy Lambert « Valorisation des produits bénéficiant d'une identification géographique au Québec », Rapport AREPO/CRÉs, sous presse
2005	« Les enjeux du foncier en Cézallier : mutations foncières et dynamiques agricoles » mémoire de Master 1, Université Lumière Lyon 2, sous la direction du Professeur Claire Delfosse.

Publications

- « Valorisation des produits bénéficiant d'une identification géographique au Québec », Rapport AREPO/CRÉs, sous presse
- « L'émergence des Indications Géographiques au Québec : construction, liens au territoire et valorisation », Co-auteur avec Carole Chazoule et Rémy Lambert, 3^e Colloque International du Réseau Syal, Baeza, Espagne, 18-21 octobre 2006

Current focus topics

Theme	Rural development, social construction of specific local quality products
Discipline	Geography
Product(s)	Blueberry Bleuets from Lac-Saint-Jean, lamb of Charlevoix, Isle-aux-Grues cheese, cranberry from Bois-Francs, Ice Cider from Canada, Richelieu Valley guinea-fowl, Baie-du-Febvre goose, Quebec maple sirop, Isle d'Orléans strawberry.
Geographical area	Quebec, Canada, North America

Copy and cut as many tables as necessary

Recommended by (name of the SINER-GI team researcher(s))

Mention additionally the SINER-GI researcher who is responsible for the requested association

Erik Thevenod-Mottet
Anna Klingemann
Rémy Lambert

Carole Chazoule

Expected contribution to SINERGI (to be filled in by the SINER-GI team researcher(s))

Contribution to the SINER-GI case study on Bleuets du Lac St-Jean

Expectations from collaboration with SINER-GI

Scientific information	Yes
Scientific publication	Yes
Market information	
Government regulations	
Master or Ph.D Thesis	Yes

Type of collaboration desired

Fields	Yes	Comments
<i>Access to on-line information</i>		
Draft reports, internal forum	<input checked="" type="checkbox"/>	
Reference on www.origin-food.org	<input checked="" type="checkbox"/>	
<i>Other sources of information</i>		
Use of non published methodologies and guidelines	<input checked="" type="checkbox"/>	
Participation to project meetings	<input checked="" type="checkbox"/>	
<i>Financial issues and related projects</i>		
Access to "cost-sharing"	<input checked="" type="checkbox"/>	
Use of reference to SINER-GI and SINER-GI Associated Researcher status for developing new projects, applying to financial means, etc.	<input checked="" type="checkbox"/>	
Publication(s) with SINER-GI researcher(s)	<input checked="" type="checkbox"/>	
Other (precise)	<input checked="" type="checkbox"/>	

<i>Date of request for association</i>	26/02/07
<i>Date of acceptance of association</i>	

To be fulfilled by the SINER-GI researcher responsible for the AR

Associated researchers

Commitment to participation and confidentiality

As associated researcher to the European Project SINER-GI, which aims are to "build and share a coherent scientific basis world-wide, regarding economic, legal, institutional and socio-cultural conditions of success of Geographical Indications, in order to support their legitimacy in the framework of WTO negotiations", I am willing to participate in its scientific activities during its duration.

In this framework, I will be associated in a process of exchange. In this way, I will support the project, receive and provide information and analysis on accurate data about Geographical Indications and their economic and institutional field in the world, hereafter the Confidential Information.

In order to provide protection against inappropriate use or unauthorised disclosure to a third party of the Confidential Information, I commit myself to the following :

I commit myself to keep those data and analysis confidential until they have been published by the consortium. I will not myself publish part or totality of those data and analysis, without refereeing to the Steering Committee or unless the Steering Committee of the project requests my participation in such a publication.

I will not use this Confidential Information with the purpose of direct or indirect exploitation, without the prior, written authorisation of the owners of the Confidential Information.

I will take all reasonable measures to prevent the personnel of the Institution I belong to, from disclosing all or part of this Confidential Information to a third party without the prior, written authorisation of the owners of the Confidential Information and, only give this Confidential Information to personnel of my Institution who agree to accept the provisions of this agreement concerning confidentiality.

I agree that none of these provisions may be interpreted as granting a license and/or any right and/or title whatsoever for the use of this Confidential Information.

I agree that any use of this Confidential Information shall be subject to the prior signature of an agreement with the owner(s) of the Confidential Information (including myself). However, Information shall not be deemed as confidential if an associate researcher is able to prove:

- that it was already in the public domain at the time it was communicated or that it has subsequently come into the public domain other than as a result of a breach of the obligation of secrecy, or
- that he already had the information before it was communicated to him/her; or
- that he freely received it from a third party which was at liberty to disclose it, or
- that he is legally bound to communicate it.

This secrecy agreement will be valid from the date of signature and will last as long as the said information is not in the public domain. As this commitment is also signed by the other associate researchers of SINER-GI project, the confidential information I will provide in the framework of the project is also protected from disclosure.

Publications produced in the frame of such a cooperation :

- will mention the SINER-GI project,
- will concern topics defined in collaboration with the SINER-GI Steering Committee,
- will be co-authored by at least one member from the core SINER-GI team.
