

**DOLPHINS**  
**TASK 2 - WP5**

**Characteristics, evolution,  
problems and opportunities for  
OLPs**

**Responsible**

**Parma team (Filippo)**

**Assistant**

**University of Monaco**

In the Task 1, the first phase of the project all the participants of the WP1, WP2, WP3, WP4, have collected bibliography, according to a *vertical analysis*:

- OLP products: definition, characteristics, legal protection
- Link between OLP and local production system, supply chain analysis
- Link between OLP and rural development
- Link between OLP and consumers and citizens.

## Methodology (1)

---

**Systematisation of the knowledge** on OLPs : definitions, characteristics, regulations and on their links with production and marketing systems, with rural development, and with the consumer/citizen.

According to this purpose, all the partners **will have to classify** their own bibliographical material respect issue related to **knowledge** ... with a small global comment.

## Methodology (1)

---

Definition  
of OLP

Characteristics of  
the project

Regulations

Link with  
production

Link with  
marketing

Link with rural  
development

Consumer / citizen

**Bibliographical material**

## Methodology (2)

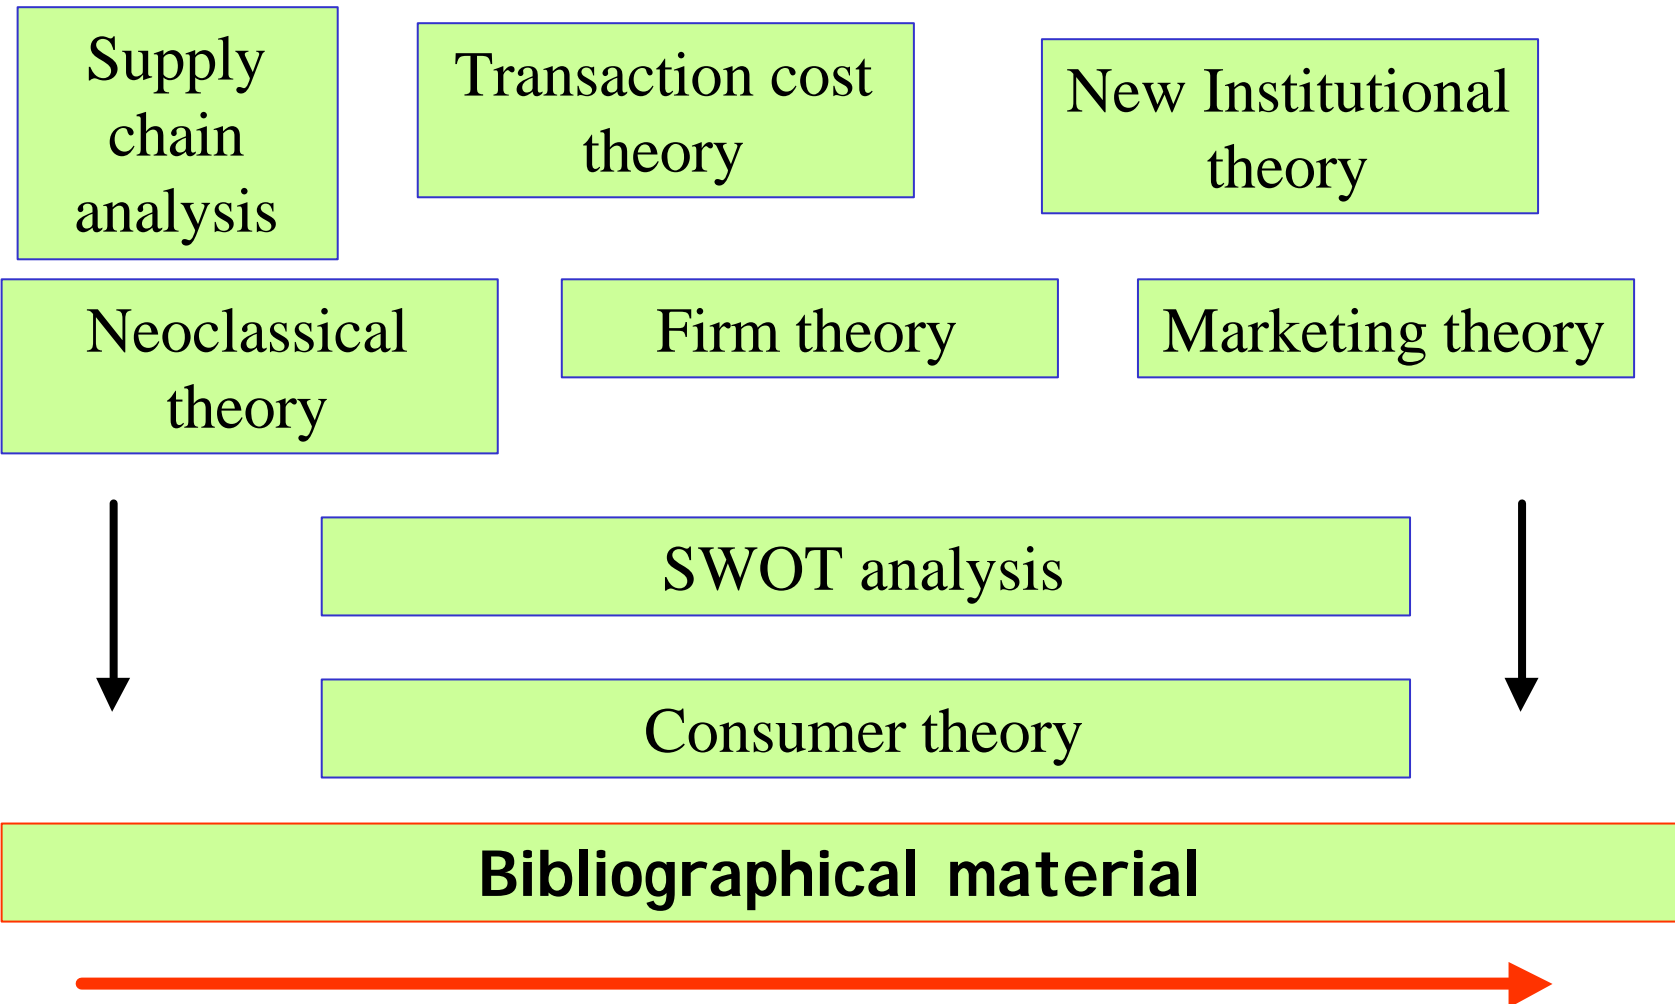

---

*Systematisation of methodological approaches* on OLPs used according to the different theories proposed inside the bibliographical material such as :

According to this purpose, all the partners **will have to classify** their own bibliographical material respect issue related to **methodology** ... with a small global comment.

## Methodology (2)

---

## Methodology (3)

---

**Identification of the success and failure conditions for OLPs**, and of main threats and resources of the OLPs in the framework of economic globalisation.

According to this purpose all the participants will have to present **some significant case study** . This will be analysed using cross reading and specific index (i.e. method proposed by B.Sylvander and D.Barjolle)

## Methodology (4)

---

**Dissemination of firts results of the Concerted Action**, by providing documents to WP8.

During this second phase of WP5 many **specific seminars and meetings will be organized**, in order to support discussion on the topic proposed

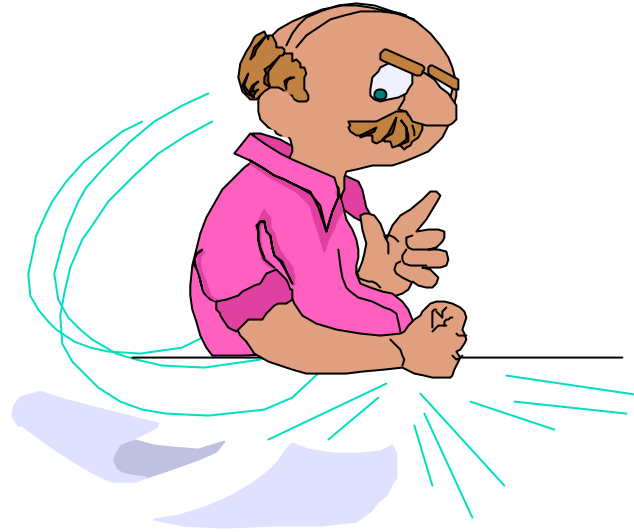

The results and new databases, created according to this new horizontal approach, will be published on the WEB site.

## Timing

---

<b>Step</b>	<b>Event</b>	<b>When</b>
1-Month18	Synthetic document WP1-4	End of June
2 -	Bibliography analysis and individuation of case study	
3-Month 20	First WP 5 Seminar	October
4	First report D5	
5	Second WP5 Seminar	December
6	Second report D5	
7-Month 26	Plenary Meeting	End of January
8-Month 28	Final Version of report D5	End of March

*Lets go to work ...*
